IAS 5793-496: Graduate Studies in International Relations

Course Description:

This 3-credit hour course is designed to provide students in the MA program in International Relations with a foundation for success in MAIR coursework by focusing on (i) analytical writing skills in the context of contemporary global issues; and (ii) critical concepts and foundational works in international relations theory. The course begins with a focus on effective analytical writing in the field of international relations. Students will read compelling analytical essays addressing contemporary global issues and will discuss both the substance and the structure of the arguments. With these essays as models, students will work on their own analytical writing through practice, peer review and rewriting.

The remaining sections of the course concentrate on essential building blocks in the field of international relations, with a particular emphasis on the relationship between domestic and international levels of explanation of international phenomena, from treaties/international agreements to economic sanctions to war.
