

The University of Oklahoma

College of Continuing Education

Advanced Programs – Course Syllabus

Course Title:

Research in Human Relations

Course Number:

HR 5023-113

Course Description:

During this course, we will attempt to survey the topic of research and its role in social sciences. Many times in research involving human subjects, exact answers cannot be obtained and the researcher must draw conclusions by inference; thus, the use of statistical analysis becomes extremely important. The course will be an introduction to elementary statistics such as central tendencies, standard deviation, correlation coefficients, z scores, t tests, Chi square, One Way ANOVA, hypothesis testing and confidence intervals. Although calculating will be involved, the primary thrust will be, hopefully, toward the understanding of the use of the numbers obtained and their meanings in research endeavors.

Assignments, Grading and Due Dates:

Readings:

Prior to the first class meeting, the student should have read Chapters One and Six of Ary. These readings will be reviewed in class. Do not worry if you do not understand each detail. The reading is to provide a common basis for our initial discussions.

Grading:

This is a letter-graded course: A, B, C, D, or F. A student's individual grade will be determined by how well he/she does on a final, in-class examination, a group research project and the post-seminar assignment.

Group Research Project	10%
In Class Final Exam	65%
Post-Seminar Assignment	25%

Notice: Failure to meet assignment due dates could result in a grade of I (Incomplete) and may adversely impact Tuition Assistance and/or Financial Aid.

Students who receive Financial Aid must resolve/complete any "I" (Incomplete) grades by the end of the term or he/she may be placed on "financial aid probation." If the "I" grade is not resolved/completed by the end of the following term, the student's Financial Aid may be suspended make the student ineligible for further Financial Aid.

Students are responsible for meeting the guidelines of Tuition Assistance and Veterans Assistance. See the education counselor at your local education center for a complete description of your TA or VA requirements.

Academic Integrity and Student Conduct

Academic integrity means honesty and responsibility in scholarship. Academic assignments exist to help students learn; grades exist to show how fully this goal is attained. Therefore all work and all grades should result from the student's own understanding and effort.

Academic misconduct is any act which improperly affects the evaluation of a student's academic performance or achievement. Misconduct occurs when the student either knows or reasonably should know that the act constitutes misconduct. Academic misconduct includes: cheating and using unauthorized materials on examinations and other assignments; improper collaboration, submitting the same assignment for different classes (self-plagiarism); fabrication, forgery, alteration of documents, lying, etc...in order to obtain an academic advantage; assisting others in academic misconduct; attempting to commit academic misconduct; destruction of property, hacking, etc...; intimidation and interference with integrity process; and plagiarism. All students should review the Student's Guide to Academic Integrity at http://integrity.ou.edu/students_guide.html

Students and faculty each have responsibility for maintaining an appropriate learning environment. All students should review policies regarding student conduct at <http://studentconduct.ou.edu/>
