

Course Title:

Organizational Behavior in Human Relations

Course Number:

HR 5323-490

Course Description:

Organizational behavior (OB) represents the behavioral approach to management. OB is concerned with human behavior at work and how various structures and work processes influence such behavior. This course will address a number of important organizational issues and processes, including organizational culture, group behavior and teamwork, and leadership.

What that really means:

Your success as a managerial leader depends on your ability to generate energy and commitment among people within your organization, and to channel that energy and commitment toward organizational goals. Doing so requires a thorough understanding of the root causes of human attitudes and behavior, as well as how leadership and the surrounding organizational and global context influence attitudes and behaviors.

This course covers concepts of leadership, motivation, group dynamics, personality, organizational development strategies, and other behavioral aspects involved in the effective management of an organization through readings, lecture, video, discussion, and case analyses. The emphasis is on building a sound grasp of leadership practice, and on developing the ability to apply such knowledge to actual business problems.

2. To produce professionally written case reports illustrating the types of individual, interpersonal, group and inter-group issues which occur in complex organizational settings.
3. To refine professional presentation skills.
4. To function effectively in a team context to deliver a written report and a group presentation.
5. To articulate your own behavioral styles and how they affect other individuals in the workplace.
6. To use appropriate analytical models, techniques, and frameworks to identify problem issues and solutions in organizational and international contexts.

Assignments, Grading, and Due Dates:

Quizzes:

Periodically throughout the semester, seven (7) short quizzes will be completed to ensure that students are keeping up with assigned reading material. The best six of seven quiz grades will be recorded. No make-

up quizzes will be allowed, except in cases warranted by extraordinary circumstances and supported with documented evidence. Students who do not submit a quiz by the due date will receive zero points. If more than one quiz is missing at the end of the semester, only one of those will be used as the dropped score. Quizzes are designed to assess course learning objectives one and six. The quizzes will be administered through the quiz application on the course website.

Case notes:

Five cases are assigned throughout the semester. It is important that you read and think about each case to facilitate your understanding of the material. Accordingly, case notes will be collected. Answer the discussion questions at the end of the case, but add additional issues you think are pertinent. These notes should be approximately 300-500 words. These assignments are designed to help you to keep up with the reading and to encourage you to practice applying the concepts. Case notes are to be done individually and are allocated up to 20 points each. Late case notes are not accepted, and **should not** be emailed to me. Submit case notes to the designated Dropbox Folder. Case notes are designed to assess course learning objectives one, two, three, and six.

Online Discussions/Participation points:

To receive the 50 points allocated to this category, you will need to be present/active in all discussions. These points are not allocated for simply posting a comment. Engagement in discussion (virtual conversation) is required. No points will be for postings after the due dates. Missing an online discussion is like missing class in a traditional classroom setting. Once the discussion has ended, you might “show up” at the site, but for all practical purposes the conversation will have ended.

Grading:

This is a letter-graded course: A, B, C, D, or F.

The grades for this specific class will be determined based upon:

Assignment	Point Value	Total Assignment Points
Comprehension Quizzes	Best 6/7, 25 points each	150
Case Notes	5 at 20 points each	100
Online Discussions	NA	50
Total	NA	300

Final Grades will be assigned based upon the percentage of total points earned relative to total points possible in the course. The standard convention for assigning letter grades for the course will be followed:

- A 90% - 100% of total points possible (270 or more points)
- B 80% - 89% (between 240 and 269 points)
- C < 80% (less than 240 points)

Notice: Failure to meet assignment due dates could result in a grade of I (Incomplete) and may adversely impact Tuition Assistance and/or Financial Aid.

Policy for Late Work:

Late work will be penalized one letter grade.

Attendance Policy:

In addition to interaction via Canvas and E-mail contact, students are required to contact the instructor via E-mail or telephone **before** the beginning of the course term for an initial briefing. Although physical class meetings are not part of this course, participation in all interactive, learning activities is required.

Student assignments and student/instructor communications will be conducted via Canvas, although students may contact the instructor via telephone, postal mail, e-mail, or fax as needed

Incomplete Grade Policy:

A grade of “I” is not automatically assigned, but rather must be requested by the student by submitting to the instructor a “Petition for and Work to Remove an Incompleted Grade” form. An “I” can never be used in lieu of an “F” nor can an “I” be assigned because of excessive failure to participate in class activities.

Technical Support Information:

If you experience technical problems, contact Information Technology by visiting their website at: <http://webapps.ou.edu/it/> or contacting them by telephone at: (405) 325-HELP (4357).

Students who receive Financial Aid must resolve/complete any "I" (Incomplete) grades by the end of the term or he/she may be placed on "financial aid probation." If the "I" grade is not resolved/completed by the end of the following term, the student's Financial Aid may be suspended making the student ineligible for further Financial Aid.

Students are responsible for meeting the guidelines of Tuition Assistance and Veterans Assistance. See the education counselor at your local education center for a complete description of your TA or VA requirements.

Academic Integrity and Student Conduct

Academic integrity means honesty and responsibility in scholarship. Academic assignments exist to help students learn; grades exist to show how fully this goal is attained. Therefore all work and all grades should result from the student's own understanding and effort.

Academic misconduct is any act which improperly affects the evaluation of a student's academic performance or achievement. Misconduct occurs when the student either knows or reasonably should know that the act constitutes misconduct. Academic misconduct includes: cheating and using unauthorized materials on examinations and other assignments; improper collaboration, submitting the same assignment for different classes (self-plagiarism); fabrication, forgery, alteration of documents, lying, etc...in order to obtain an academic advantage; assisting others in academic misconduct; attempting to commit academic misconduct; destruction of property, hacking, etc...; intimidation and interference with integrity process; and plagiarism. All students should review the Student's Guide to Academic Integrity at http://integrity.ou.edu/students_guide.html

Students and faculty each have responsibility for maintaining an appropriate learning environment. All students should review policies regarding student conduct at <http://studentconduct.ou.edu/>
