

# EXTENDED CAMPUS

*The* UNIVERSITY of OKLAHOMA

**Graduate level Credit  
For  
Command and Staff College  
Distance Education Program**

The University of Oklahoma, in partnership with the Marine Corps College of Continuing Education (CCE), now awards 15 master's degree credits for the Command and Staff College Distance Education Program (CSCDEP)

This arrangement is a first for the Marine Corps as the University of Oklahoma will grant graduates of the CCE's CSCDEP 8900 series, 15 graduate-level academic credit hours that Marines can use towards continuing their studies. The degree is a Master of Arts in Administrative Leadership (MAAL) and can be completed entirely online at a reduced tuition rate for military students. Only students, who have taken the 8900 series CSCDEP, without equivalency credit from the 8800 series program, are eligible for this degree agreement.

The credit hours are broken down into 9 graduate level credit hours that will count as degree electives, and will be transcribed as satisfactory "S" graded coursework. Students will receive 9 credit hours in Directed Readings in Interdisciplinary Studies (LSTD 5960). There will be no charge for these 9 hours. Students will also be enrolled in 6 graduate level credit hours of LSAL 5920 Internship in the last term of the degree. All OU enrolled CSCDEP graduates will be required to submit an Internship essay detailing their career leadership experience.

If the Internship essay is found to be satisfactory, a grade of "S" will be assigned to LSAL 5920. This will complete the total 15 hours prior to continuing on to complete their MAAL Degree. There is a \$50 transcript transaction fee plus University fees per semester hour for the Internship enrollment.

18 additional credit hours and a final assessment (Comprehensive Examination), beyond the 15 hours granted for the CSCDEP, are required by the University to complete the MAAL degree.

If you have completed the 8900 CSC and do not have credit for it please contact LaDawn Jones, at 405-325-6421 or 800-522-4389, or send an email [ladawnjones@ou.edu](mailto:ladawnjones@ou.edu)
