PSC 5913-221: Introduction to Analysis of Political and Administrative Data

Course Description:
This course is a graduate-level introduction to statistical analysis of political and administrative data. The central focus is descriptive, explanatory, and inferential statistics as they are used to address problems of public management and public affairs. The course is oriented toward utilization of quantitative procedures and interpretation of results, rather than to theoretical issues.

Class Dates, Location and Hours:

Dates: May 5 – 10, 2020
Location: Aviano AB, Italy. Classroom location to be determined.
Hours: Tuesday - Friday 6:00-9:30 pm; Saturday and Sunday 8:30 a.m.-4:30 p.m.
Last day to enroll or drop without penalty: April 6, 2020

Site Director:
Email: apaviano@ou.edu, Phone 39-0434-30-5977; DSN: 6322-5977.

Professor Contact Information:
Course Professor: B. Mitchell Peck, PhD
Mailing Address: 780 Van Vleet Oval
Department of Sociology
University of Oklahoma
Norman, OK 73019
Telephone Number: (405) 325-1751
Email Address: bmpeck@ou.edu
Professor availability: The professor will be available via email to students before and after the class sessions. On-site office hours are half an hour before and after each class session, by appointment.

Textbook(s) and Instructional Materials:
Student materials are available at the OU Bookstore Website at https://ou.textbookx.com/institutional/index.php. There is no longer a physical bookstore, the store will remain, but textbooks will not be stocked. The website has book selling, renting, buying, returning, and order tracking capabilities. If you need help with an order, or if you have any questions contact the toll-free phone at 1-(855)-790-6637, agents are available from 9a – 5p (EST) Monday – Friday. For more information or questions about textbooks, feel free to contact apsyllabi@ou.edu. Text prices are available online

2. Materials posted on the OU Canvas learning management system: Access Canvas at https://canvas.ou.edu, enter your OU NetID and password, and select course to access material. If you require assistance with Canvas, please click on the Help icon. You can search the Canvas guides, chat with Canvas support, or contact OU IT.
Course Objectives:
This is an applied course on statistical analysis. Much of the in-class time will be spent solving problems relative to issues of public management and public affairs. Upon completion of the course, students should be able to:

1. understand statistical terminology;
2. understand the logic behind, and the interpretation of, the statistics discussed in class;
3. calculate and interpret commonly used statistics; and
4. use quantitative information in an informed manner, e.g., read the literature in the field or communicate with a statistician.

Course Outline:
The course is divided into 3 main sections: descriptive statistics, bivariate statistics, and inferential statistics. There will be an exam at the end of the course. The exam will cover material from all sections of the course.

The conduct or structure of the course is fairly consistent from section to section. You are expected to read the materials before class. I will lecture over the materials. The lectures will supplement the readings. Following the lecture, you will complete in class exercises. We will then move to the next topic.

Introductions/Overview:
1. Tuesday, May 5, 6:00pm – 9:30pm:
   a. Introduction
   b. Course Overview
   c. Topic 1: Research and Data
      i. Online Reading 1 & 2
   d. Topic 2: Math review
      i. Text Reading Ch. 1

Descriptive Statistics:
1. Wednesday, May 6, 6:00pm – 9:30pm:
   a. Topic 4: Frequencies/Graphs
      i. Text Reading Ch. 2
2. Thursday, May 7, 6:00pm – 9:30pm:
   a. Topic 5: Central Tendency
      i. Text Reaching Ch. 3
   b. Topic 6: Variability
      i. Text Reaching Ch. 4

Bivariate Statistics:
1. Friday, May 8, 6:00pm – 9:30pm:
   a. Topic 7: Bivariate Tables
      i. Text Reading Ch. 9 (pp. 212–227)
   b. Topic 8: Measures of Association
      i. Text Reading Ch. 9 (pp. 238-248)
   c. Topic 9: Regression & Correlation
      i. Text Reading Ch. 11

Inferential Statistics:
1. Saturday, May 9, 8:30am – 4:30pm:
   a. Topic 10: Normal Distribution
      i. Text Reading Ch. 5
   b. Topic 11: Sampling Distributions:
      i. Text Reading Ch. 6
   c. Topic 12: Estimation
Exam:

The exam will have multiple question types, including multiple choice, true/false and short answer questions, as well as hand calculation problems. To successfully complete the exam, students must apply course concepts, which often require calculations. The exam is open-book—students may use notes, handouts, books, or other written materials. Students must have a simple calculator to complete the exams. Students may not work with anyone else to complete the exams.

The exam accounts for 90% of the total grade.

In-class Exercises and Participation

You will complete in-class exercises during each class meeting. The exercises will cover material from the reading assignments.

The in-class assignments are designed to give students hands-on experience with the material covered in class. Completing the assignments is critical to understanding the material and good performance in the course. Assignments reinforce the concepts that are being taught in class. Doing the assignments helps you to understand the material more fully. Concepts learned in earlier lectures are frequently used in later lectures. You will need a simple calculator every day in class to complete the exercises.

You must read the material prior to class. I will evaluate your preparation and participation throughout the course.

The in-class assignments and participation account for 10% of the total grade.

Grading:

This is a letter-graded course: A, B, C, D, or F.

Grades are based on the following assignments (due dates and weight of assignments are listed):

<table>
<thead>
<tr>
<th>Assignment</th>
<th>Due Date</th>
<th>Weight Percent</th>
</tr>
</thead>
<tbody>
<tr>
<td>Exam</td>
<td>May 10, 2020</td>
<td>90%</td>
</tr>
<tr>
<td>In-class Exercises and Participation</td>
<td>Throughout</td>
<td>10%</td>
</tr>
<tr>
<td>Total</td>
<td>NA</td>
<td>100%</td>
</tr>
</tbody>
</table>

Notice: Failure to meet assignment due dates could result in a grade of I (Incomplete) and may adversely impact Tuition Assistance and/or Financial Aid.
POLICIES AND NOTICES

Attendance/Grade Policy

Attendance and participation in interaction, individual assignments, group exercises, simulations, role playing, etc. are valuable aspects of any course because much of the learning comes from discussions in class with other students. It is expected that you attend all classes and be on time except for excused emergencies.

Excused absences are given for professor mandated activities or legally required activities such as emergencies or military assignments. It is the policy of the University to excuse absences of students that result from religious observances and to provide without penalty for the rescheduling of examinations and additional required class work that may fall on religious holidays. Unavoidable personal emergencies, including (but not limited to) serious illness; delays in getting to class because of accidents, etc.; deaths and funerals, and hazardous road conditions will be excused.

If you are obtaining financial assistance (TA, STAP, FA, VA, Scholarship, etc.) to pay all or part of your tuition cost, you must follow your funding agency/institution’s policy regarding “I” (Incomplete) grades unless the timeline is longer than what the University policy allows then you must adhere to the University policy. Students who receive Financial Aid must resolve/complete any “I” (Incomplete) grades by the end of the term or he/she may be placed on “financial aid probation.” If the “I” grade is not resolved/completed by the end of the following term, the student’s Financial Aid may be suspended make the student ineligible for further Financial Aid.

Students are responsible for meeting the guidelines of Tuition Assistance and Veterans Assistance. See the education counselor at your local education center for a complete description of your TA or VA requirements.

Academic Integrity and Student Conduct

Academic integrity means honesty and responsibility in scholarship. Academic assignments exist to help students learn; grades exist to show how fully this goal is attained. Therefore all work and all grades should result from the student's own understanding and effort.

Academic misconduct is any act which improperly affects the evaluation of a student’s academic performance or achievement. Misconduct occurs when the student either knows or reasonably should know that the act constitutes misconduct. Academic misconduct includes: cheating and using unauthorized materials on examinations and other assignments; improper collaboration, submitting the same assignment for different classes (self-plagiarism); fabrication, forgery, alteration of documents, lying, etc.…in order to obtain an academic advantage; assisting others in academic misconduct; attempting to commit academic misconduct; destruction of property, hacking, etc.…; intimidation and interference with integrity process; and plagiarism. All students should review the Student’s Guide to Academic Integrity at http://integrity.ou.edu/students_guide.html

Students and faculty each have responsibility for maintaining an appropriate learning environment. All students should review policies regarding student conduct at http://studentconduct.ou.edu/

Accommodation Statement

The University of Oklahoma is committed to making its activities as accessible as possible. For accommodations on the basis of disability, please contact your local OU Site Director.

Adjustment for Pregnancy/Childbirth-Related Issues

Should you need modifications or adjustments to your course requirements because of documented pregnancy-related or childbirth-related issues, please contact me as soon as possible to discuss. Generally, modifications will be made where medically necessary and similar in scope to accommodations based on temporary disability. Please see http://www.ou.edu/content/eoo/faqs/pregnancy-faqs.html.
Title IX Resources

For any concerns regarding gender-based discrimination, sexual harassment, sexual misconduct, stalking, or intimate partner violence, the University offers a variety of resources, including advocates on-call 24/7, counseling services, mutual no-contact orders, scheduling adjustments, and disciplinary sanctions against the perpetrator. Please contact the Sexual Misconduct Office at smo@ou.edu or (405) 325-2215 (8-5), or the Sexual Assault Response Team at (405) 615-0013 (24/7) to report an incident. To learn more about Title IX, please visit the Institutional Equity Office’s website at http://www.ou.edu/content/eeo.html

Course Policies

Advanced Programs policy is to order books in paperback if available. Courses, dates, and professors are subject to change. Please check with your OU Site Director. Students should retain a copy of any assignments that are mailed to the professor for the course. Advanced Programs does not provide duplicating services or office supplies.

Any and all course materials, syllabus, lessons, lectures, etc. are the property of professor teaching the course and the Board of Regents of the University of Oklahoma and are protected under applicable copyright.

For more information about Advanced Programs, visit our website at: http://www.goou.ou.edu/
INSTRUCTOR VITA

B. Mitchell Peck

Education

• Ph.D. Sociology, Texas A&M University, College Station, Texas, 2002
• M.S. Sociology, Texas A&M University, College Station, Texas, 1990
• B.A. Sociology, Idaho State University, Pocatello, Idaho, 1987

Current Positions

• 2013-present Associate Professor, Department of Sociology, University of Oklahoma, Norman, Oklahoma
• 2012-present Affiliate Faculty, Center for Social Justice, The Women’s and Gender Studies’ Center, University of Oklahoma, Norman, Oklahoma
• 2005-present Adjunct Assistant Professor, Department of Health Administration and Policy, College of Public Health, University of Oklahoma Health Sciences Center, Oklahoma City, Oklahoma
• 2004-present Adjunct Assistant Professor, Departments of Health Policy and Management and Epidemiology and Biostatistics, School of Rural Public Health, Texas A&M University System Health Science Center, College Station, Texas

Frequently Taught Advanced Programs Courses

• PSC5913 – Introduction to Analysis of Political and Administrative Data
• PSC5143 – Program Evaluation
• PSC5233 – Health Policy
• PSC5343 – Public Policy and Inequality

Major Areas of Teaching and Research Interest

• Teaching – Statistics, Research Methods, Inequality, Health and Medical Issues
• Research Interests – Health and Medicine, Public Policy

Representative Publications and Presentations
